

## Objective

---

My objective is to obtain a position that will offer challenges and advancement in software development.

## Skills

---

- Android (Java), iOS (Objective-C, Swift), Javascript, JQuery, Node.js/Express, Spring, GWT, Django/Python
- Eclipse, IntelliJ, Android Studio, XCode, Git, SVN, Jira, Jenkins/Hudson, Tomcat, Apache
- Mac OSX, UNIX, Linux, Oracle, SQL Server, IBM UDB/DB2, MySQL, Microsoft Access, MongoDB
- Agile development, project estimation, planning and management
- Communication, problem solving, interpersonal and leadership skills

## Experience

---

### **BITLY, Mobile Platform Engineer** *Denver, CO* (February 2016 - Present)

- Designed and developed iOS and Android SDK's for Universal/App Link consumption
- Developed the first Bitly Android app
- Rebuilt the iOS app in Swift to match the updated branding and functionality

### **SPORTSLABS, Mobile Engineering Manager** *Boulder, CO* (July 2015 - February 2016)

- Responsible for 70+ apps across 3 main app platforms
- Implemented various design and feature changes for a redesign of the application UI
- Started initiatives related to unit testing, better app configuration, architecture improvements and data processing

### **MOBILEDAY, Principal Software Engineer** *Boulder, CO* (July 2013 - July 2015)

- Refactored Android application to improve performance and stability and completed feature and design parity
- Added caching and test improvements to the iOS application and worked on iOS 7 and iOS 8 rollouts
- Implemented various security, automation and security improvements across the infrastructure and mobile apps
- Developed functionality for Django/Python REST services and Node.js/Express/Angular web application

### **RALLY SOFTWARE, Senior Software Engineer** *Boulder, CO* (July 2012 - July 2013)

- Developed functionality for consumer facing agile project planning applications
- Designed and developed architecture changes for an updated version of the web service API
- Developed architecture changes geared around improving application performance

### **GRUBHUB, App Dev Manager/Senior Software Engineer** *Chicago, IL* (May 2011 - July 2012)

- Developed functionality for consumer facing commerce website including saving user information and frequency program
- Designed and developed architecture for new customer service application utilizing GWT
- Developed functionality for both the Android and iPhone applications
- Lead a team of two additional engineers, a quality assurance engineer and a business analyst/project manager

### **TRUSTWAVE, Software Architect** *Chicago, IL* (July 2009 - May 2011)

- Developed user interfaces utilizing Adobe Flex
- Developed application back-ends utilizing Terracotta, Active MQ, Spring and Hibernate
- Developed application architectures including an enterprise service bus
- Provided mentorship to new and established developers

### **TRILLIANT INC, Technical Team Lead** *Redwood City, CA* (January 2007 - July 2009)

- Developed user interfaces utilizing Google Web Toolkit (GWT) and AJAX
- Developed web services and back-end application utilizing Axis, Spring and Hibernate
- Developed application architectures including security, session management, cache and data access
- Developed a GWT framework and common widgets for use in existing and future applications
- Provided mentorship to new and established developers

**THE KROGER CO, Web Architect** *Cincinnati, OH* (October 2004 - January 2007)

- Provided architecture expertise and direction for projects across the enterprise
- Provided strategic direction for the enterprise on open source technologies and development platform
- Provided mentorship to new and established web development teams

**THE KROGER CO, Web Development Lead** *Cincinnati, OH* (December 2002 - October 2004)

- Provided architecture direction for all projects developed within the group and projects in other groups
- Designed, developed and supported several enterprise WebSphere/J2EE/Struts/Spring/Hibernate applications
- Designed, developed and supported an enterprise security framework with Struts integration

**SOFTWARE ARCHITECTS, Consultant** *Cincinnati, OH* (June 2001 - December 2002)

- Worked on a team designing and developing various J2EE/Struts applications for Fifth Third Bank
- Worked on a team designing and developing two WebSphere/J2EE applications for LexisNexis

## Education

---

**UNIVERSITY OF DAYTON** *Dayton, OH* (1996-2001)

Bachelor of Science, Management Information Systems (MIS)
